## Cut a dash in Las Vegas...

A night of thrills and fun awaits, if you play your cards right!

The breathless hush of anticipation that awaits the click of the ball on the burnished brass of the roulette wheel as it completes it's dizzy spin, the screams of delight that greet the shout of "blackjack", and the buzz, clamour and heady excitement of people having a really great time, in an atmosphere encompassing all the glitter, glamour and sophistication of the world renowned Casinos of Las Vegas, Monte Carlo and Atlantic City is what our "Fun Casino" is all about.

### Our Performance

Together with our specially trained croupiers/dealers, full size professional gaming tables, cards, chips and a wide variety of accessories, props and display material, we will create the colour, excitement and ambience of a real live Casino at the venue of your choice. Even those who have never gambled before will quickly master the art, gently encouraged by the friendly and helpful advice of our specially trained dealers.
