

Up Up and Away!

Let fly with your creative talents...

A colourful, fun activity that harnesses the different skills of your group

Your team must combine their skills to construct and brand a Hot Air Balloon. Utilise your teams' combined ingenuity by solving confusing conundrums and maddening mind-benders to 'earn' the equipment you will need.

This is an exhilarating and fun challenge which targets the full range of your team's resources, as they tackle a myriad of initiative problems and tasks together.

A great evening, which is also an ideal event for a product launch.
