The Daily Kick Off

What better way to kick off your day or week than with this motivational experience.

This self-guided solution provides an upbeat, creative challenge that will encourage participants to shoot motivational photos and videos in their own home, focused around boosting morale when employees are working remotely.

The photos and videos will be saved into a presentation for your team to share, creating a lasting memory and plenty of fun!

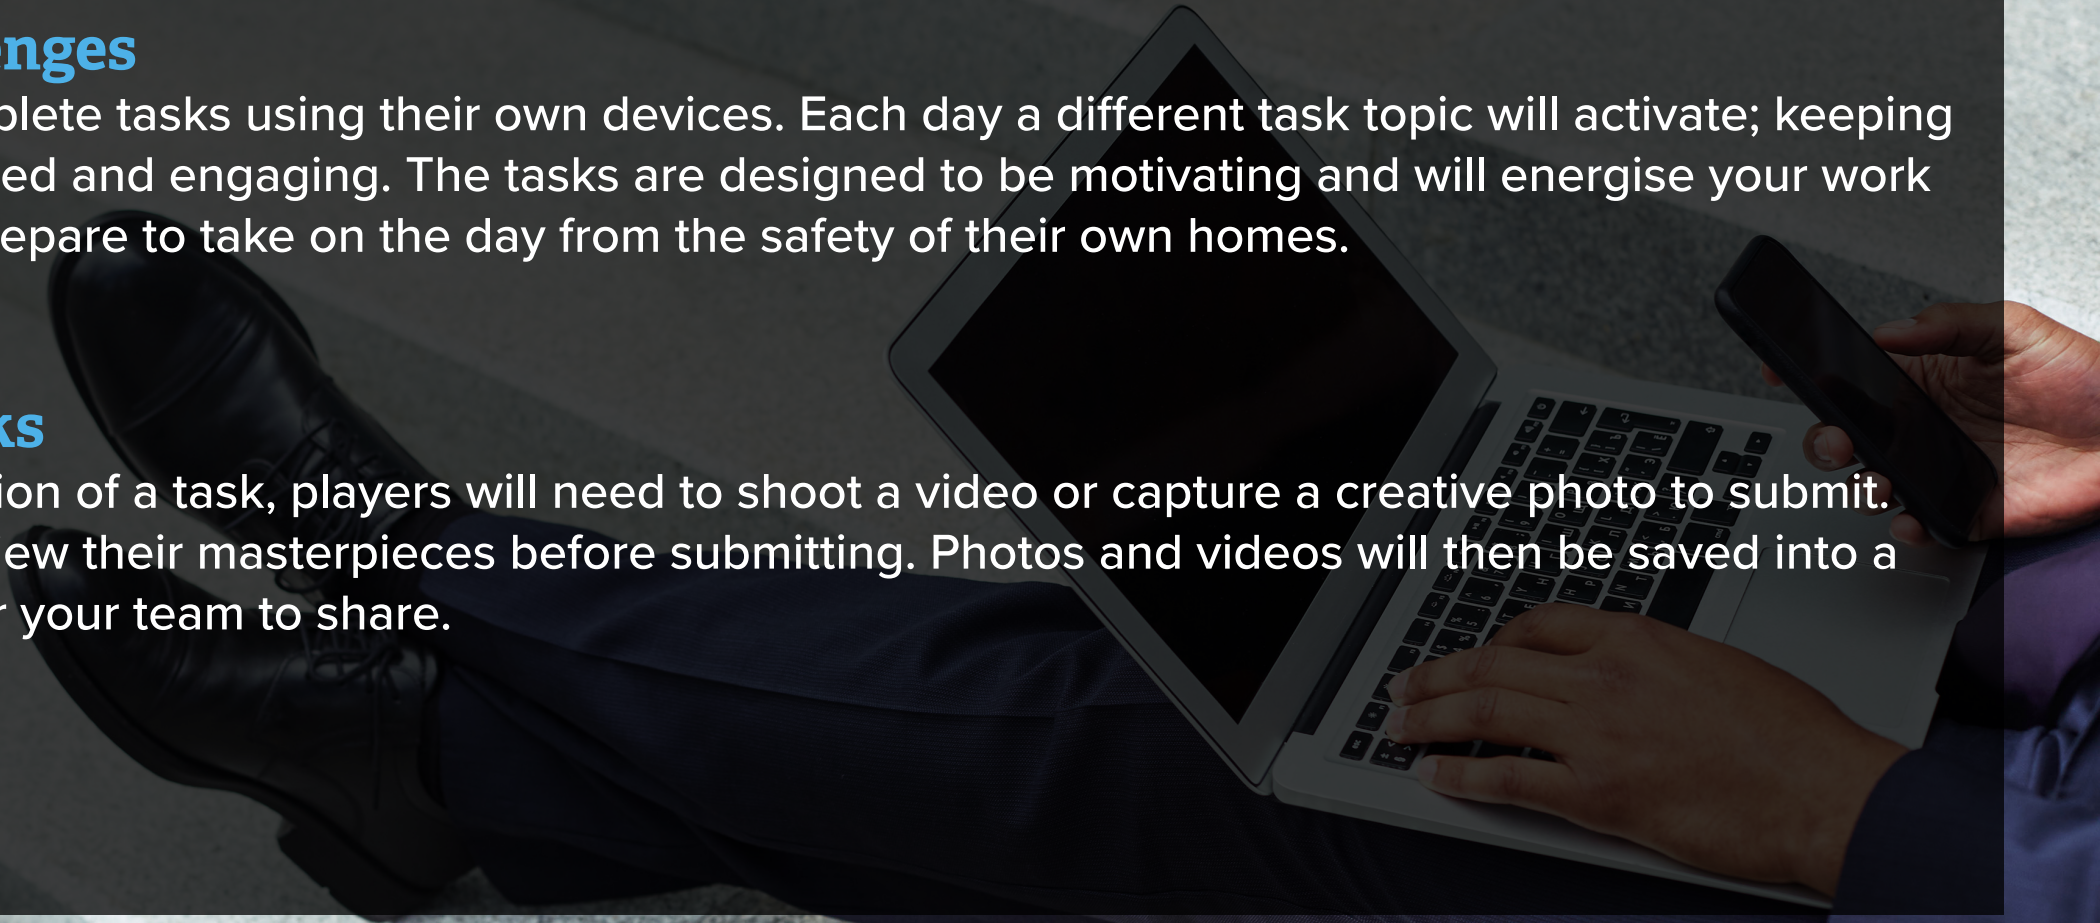

How does it work?

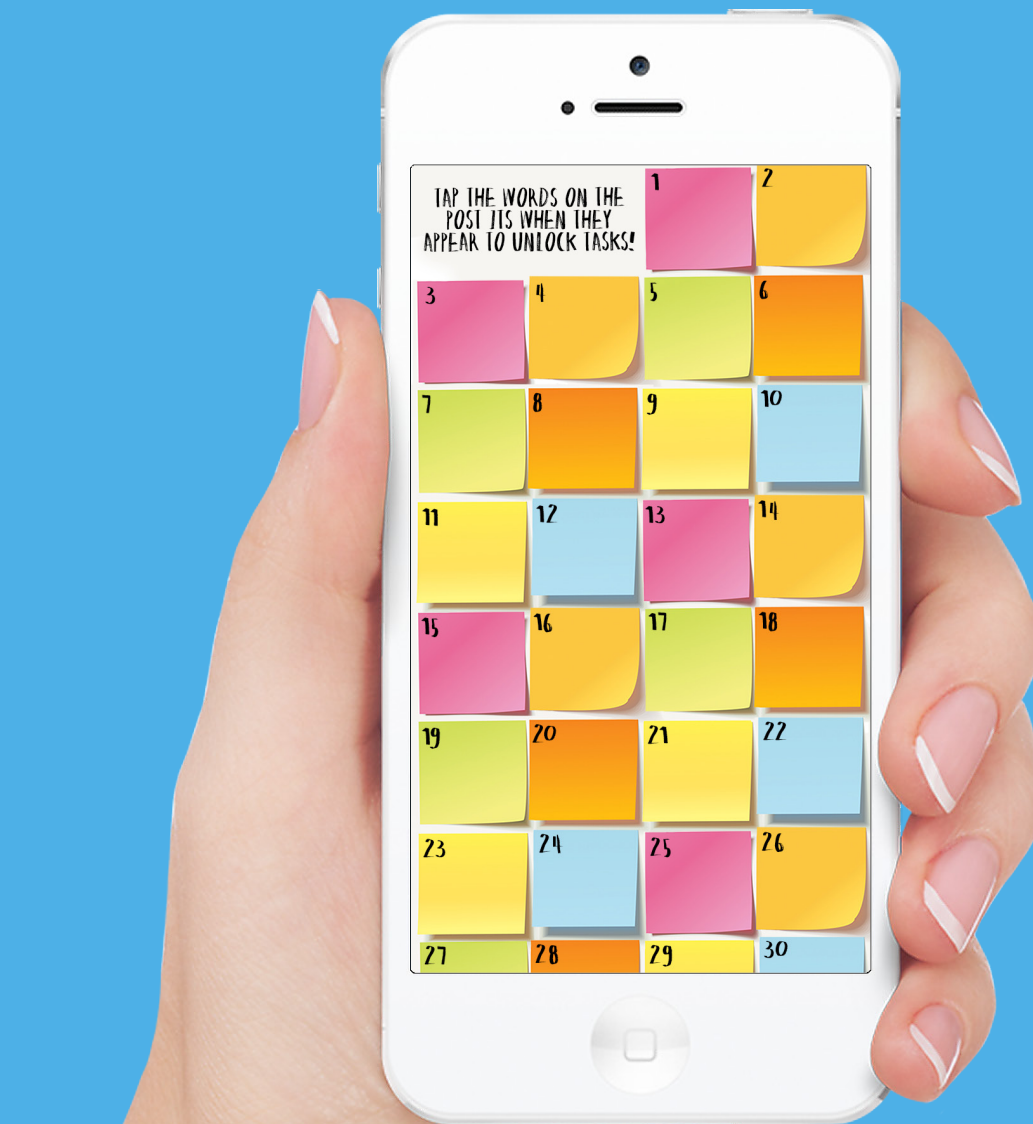

Daily Challenges

Teams will complete tasks using their own devices. Each day a different task topic will activate; keeping the content varied and engaging. The tasks are designed to be motivating and will energise your work force as they prepare to take on the day from the safety of their own homes.

Upbeat Tasks

After a description of a task, players will need to shoot a video or capture a creative photo to submit. Players can review their masterpieces before submitting. Photos and videos will then be saved into a presentation for your team to share.
